About myself:

I have been riding FMX for about 9 years now and been doing it professionally for about 7 years now. I started off riding with my friends on a track that I build on my parents' property and since then just been progressing and innovating the sport in SA. I then started competing in SA and then moved on to competing on the world circuit in Europe. I had a few good years there and in 2006 I was ranked No.5 in the world rankings. I have performed in numerous countries around the world and spend a lot of my time traveling to crazy destinations like Taiwan and Egypt. Now I spend a lot of my time doing events both in South Africa and in Europe and also competing in events like the RedBull X-Fighters. I have had a lot of help from my parents, friends and sponsors and without them I wouldn't have been able to do what I have done. Thanks to all of them.
